

Thank you for all the nurses for their commitment and solidarity during the world pandemic

Today Thank you

To Our Heroes, the nurses and all the health teams

Thank the nurses and the health teams

For being on the front lines of this warrior's battle...

Who have braved this pandemic with strength and courage

Who every day have saved Lives

With their commitment, their know-how, their skills

Which throughout these weeks have been highlighted

You deserve a very special tribute of recognition

For your versatility and caring

Let's continue to affirm together our Nurse Identity

Let us recognize ourselves "in the lamp symbol of Florence Nightingale."

"Let us continue to bring light into the darkness..."

Let's be a beacon for others."

The TEAM SIGOP-SIDOPS SWITZERLAND
